STERN KOREAN POLICY

It Is Stated That Japan Will This Course Pursue.

ROCKHILL CENSURED

Charged That American Minister at Peking Gave Seant Entertainment to Miss Alice Roosevelt and Her Party.

Victoria, B. C., Oct. 11.—A dispatch from Tokio by the Empress of Japan states that a stern Korean policy is to be adopted by Japan following the announcement of the Anglo-Japan treaty. Tokio publicists state freely that since the treaty guarantees the freedom of Japan in prosecution of Korean interests the shadow of the Korean government will shortly be swept away and practically a suzerainty over Korea established. Several Japanese papers state foreign ministers to Korea will be withdrawn and Korean ministers abroad be recalled, for as long as Korea is in a position of wielding diplomatic rights she may be inveigled by ambitious diplomats, even if Japanese supervision be maintained, and Japanese interests may be jeopardized. The return of Russian agents, the attitude of the Korean government regarding uprisings of Koreans in the north and formation of patriotic societies in Seoul among factors are calling forth demands from political leaders in Japan for rigorous measures in Korea.

A Yokohama paper says a part of the Manchurian army may be quartered in Korea instead of being withdrawn to Japan, as concerted uprisings of Koreans, abetted by officials of the Korean government, are considered too imminent a possibility to be treated lightly.

Mail advices by the Empress of Japan, including a Manila dispatch to the Japanese Advertiser of Yokohama, state that General Corbin censures United States Minister Rockhill, at Peking, charging him with dereliction of duty in provisions made for the reception and entertainment of the president's daughter and party at Peking. The Advertiser says: "The execrable mismanagement of the reception and direct discourtesy on the part of the minister are charges freely made. The returning party say the marked scantiness of the attention paid them was sufficient to elicit surprise from various legations and staffs of other embassies."

J. R. Hegeman, president of the Metropolitan Life insurance company of New York, and wife arrived from Japan by the steamer Empress of Japan. Mr. Hegeman said he would go direct to New York to give evidence before the legislative committee investigating into the affair of insurance companies. He said the stories circulated that he had gone to Japan to escape a hearing before the committee was totally untrue.

According to advices received by the steamer Empress of Japan the bomb outrage at the Peking railway station, which involved the death of the bomb thrower and others, is alleged to have been instigated by Dr. Sun Yatzen, ringleader of the Revolutionary party in China. The Japanese Advertiser of Yokohama says Sun Yatzen, who is in Japan, has sent over thirty assassins to Tien Tsin since August. Following the outrage the Chinese government telegraphed to the Chinese minister at Tokio asking that he secure the aid of the Japanese government to apprehend Sun Yatzen, who escaped from prison in China and escaped from the Chinese legation at London when arrested there. Yon Ik, former Korean minister, who escaped to Shanghai in a junk, as stated by Shanghai papers, is believed to be on a secret mission to Europe. On his arrival at Shanghai he addressed a long telegram to the Chinese empress. The minister is believed to be a Russian agent, and Japanese officials sought to apprehend him before he left Korea.

Mr. Hurlbut of the Korean Review, according to advices by the steamer Empress of Japan, makes grave charges against Japanese administration in Korea. He says thousands of Korean peasants are threatened with starvation and heart rendering scenes are occurring daily because peasants are dispossessed of their lands without compensation.

Ripley Says Extension of Santa Fe Is a Certainty.

San Francisco, Oct. 11.—President Ripley of the Atchison, Topeka and Santa Fe railway, has decided to build the new piece road, which will give San Francisco another direct rail connection with Galveston, Tex. He has just incorporated the Gulf, Santa Fe and Southwestern railway. The latter company is to build 350 miles of road from Brownwood, northwest to Texico, on the Texas and New Mexico boundary. Texico is a point on the North and South Pecos Valley line of the Santa Fe railway.

The Santa Fe and California overland line is being built to Rio Puerco by the Eastern New Mexico railway, Santa Fe company.

By means of this new piece of road from Rio Puerco to Mexico and thence north over the Pecos Valley line the Santa Fe will have a second and shorter overland line to California.

MUCH MONEY MISSING

One Hundred Thousand Dollars Have Been Stolen.

CUNLIFFE HAS GONE

Confidential Clerk at Pittsburg of the Adams Express Company Has Taken His Departure For Unknown Point.

Pittsburg, Oct. 11.—The startling discovery was made Tuesday that the Adams Express company has been victimized to the extent of \$100,000, supposedly through the peculations of an employee.

The following official statement of the affair is given to the Associated Press for publication:

"At 4:15 p. m. Monday, Oct. 9, a bank of Pittsburg, Pa., delivered to the Adams Express company, at their office, 610 Wood street, Pittsburg, a package of currency containing \$100,000. Of this amount \$80,000 was in \$100 bills, \$10,000 in \$50 bills, and the remainder, \$10,000 in \$5, \$10 and \$20 bills. The \$100 and the \$50 bills issue of the Farmers' Deposit National bank of Pittsburg and the Bank of Pittsburg were in the main entirely new; some had been slightly used. The \$5, \$10 and \$20 bills were old currency. The package containing this large sum of money was consigned to a bank in Canton, O."

"This package was received and accepted for by Edward George Cunliffe, who was then acting in the place of the regular money clerk, who was ill. "Cunliffe left the office at the usual time Monday evening, and Tuesday morning when he failed to report for duty a hurried examination was made of his department and it was learned that about \$10,000 funds entrusted to his care were missing. General Agent Hiner of the Adams Express company immediately called in detectives and placed the matter in their hands. Later developments brought to light the fact that in addition to the \$10,000 missing, the bank package containing the \$100,000 had not been received at the money forwarding office at Union Station, this city.

"Inquiries made at his residence, 314 Lucerne street, West End, Pittsburg, showed that Cunliffe arrived home at the customary time Monday evening, and after changing his clothes, bade his family good-bye, saying to his wife that he was going out for the evening, and nothing further has been heard of him." A warrant was issued charging him with larceny.

SHANLEY BURIED.

Blood Tests Being Made In Seeking For Yellow Fever Germs.

New Orleans, Oct. 11.—The body of Dr. C. M. Shanley, who died at Barrataria, was interred here with Masonic honors.

Among the patients at the emergency hospital is R. T. Perkins, a young medical student. Perkins had been assisting Dr. Archinard and his party in making blood tests in connection with the attempt to discover the yellow fever germ. It was announced he had been infected by a case outside the hospital.

Dr. Goldberger of the marine hospital service, who has been making bacteriological tests with Dr. Dr. Roseneau for the government at the emergency hospital, went to Willwood plantation, where there are said to be some typical cases of fever. Dr. Corput went to Patterson. Dr. Corput has been able to remove friction at various points to which he has been sent and there is hope that he will be able to bring about an improvement in the Patterson situation.

Up to 6 o'clock Tuesday there were eighteen new yellow fever cases, four deaths and nine more fool reported.

Other Mississippi cases reported are: Hamburg, one; Port Gibson, two; Rosetta, two.

The country reports were as follows: Kenner, five new cases.

Near Plattenville, two new cases.

Barrataria, one new case.

Covington, one new case.

New Iberia, two cases.

Fisher's Camp, one new case.

Natchez reports six new cases, all but one being negroes. Four new cases were Vicksburg's report. Two cases were reported at Terre Bonne, Miss., and five at Gulfport.

Thirty-Two New Cases of The Dreadful Malady and Three Deaths.

Pensacola, Fla., Oct. 11.—There was a large increase in yellow fever cases Tuesday, thirty-two being reported. The death list was three.

The large increase in the number of new cases was expected, owing to the very inclement weather and the previous spread of the disease to all sections of the city. The number Tuesday was much larger than any day since the outbreak of the fever. A large number of suspicious cases was reported. One of the deaths was British Vice Consul Frederick Bonar, who was taken ill last week. He had been here for five years, coming here from Brest, France, where he was vice consul. His family is prominent, his father being in the consular service in Paris, and his brother is a consul general in Japan.

At a meeting of the city council applications were made for the employment of more physicians to assist in stopping the rapid spread of the disease.

THURSDAY OCTOBER 12.

IN MEMORY OF JUDGE C. C. GARRETT.

Resolutions Were Formally Adopted Yesterday by the Local Bar Association.

At a meeting of the Brazos County Bar Association held yesterday morning at the conclusion of the fall term of the Brazos county district court, Hon. Sam R. Henderson presiding and Judge A. C. Brietz secretary, the following resolutions on the death of Chief Justice C. C. Garrett were unanimously adopted and inscribed in the minutes of the court:

To Hon. J. C. Scott, Judge of the District Court of Brazos County, Texas:

At an adjourned meeting of the members of the Brazos County Bar, a committee consisting of its entire membership, was appointed to present suitable resolutions, commemorating the death of the late C. C. Garrett, Chief Justice of the First Supreme Judicial District of Texas.

In making a short survey of the late Chief Justice we find that in early life he was a soldier and trained with the Texas boys in the war between the states. Later we find him a student of Baylor University, then to Washington and Lee, where he made some reputation as a student and as an orator. Returning to Texas he was for a short time a schoolmaster, and a number of the then tyros of this city took lessons at his feet. At one time he was director of the A. and M. College. Soon, following the bent of his genius, he took the profession of Blackstone, and as a lawyer grew into practice; he was soon called to the District Bench, and under the change made in the article on the Judiciary in the State Constitution he was elected the first Chief Justice of the First Supreme Judicial District of Texas, (this county composing a part of said district.) A few months before his death, failing health caused his resignation. Death came to him easily; though in his prime, he had made a good fight and had "kept the faith." We find much in the character of our departed friend to admire. He was courageous under trying difficulties. He was always for the right. He sought to arrive at the root of the trouble, though it frequently caused arduous toil.

His name will go down to posterity as a man fearless and conscientious in the discharge of his duty. In presenting these resolutions we recommend that same be inscribed

on a page of the minutes of this court and that same be dedicated to his memory.

Sam R. Henderson, Chairman.
A. C. Brietz, Secretary.

A Special Price on WOMEN'S RAIN COATS

FOR the past few years it has been the custom of one of New York's most prominent manufacturers to obtain an entire output of raincoats from a mill, and during the dull months when labor is cheap, manufacture same into swell raincoats, that not only keep you dry, but also make you appear well dressed.

With this manufacturer we have made arrangements.

While 'tis true that under ordinary circumstances they sell at \$15.00, we offer the garments in colors: tan, castor, brown, olive, and oxford for

\$10.00

Ladies' sizes, 32 to 44.

WILL BE DISSECTED.

In Compliance With Will Body of William Catt to Be Cut Up.

New York, Oct. 11.—In accordance with the provisions of his will the body of George William Catt, husband of Mrs. Gerrie Chapman Catt, ex-president of the National Woman's Suffrage association and president of the International Woman's Suffrage association, will be dissected for the advancement of medical and surgical knowledge. Mr. Catt died on Sunday at his home, 205 West Fifty-seventh street, following an operation for gall stones and a special permit was issued by the health department and the body taken to Cornell University and Bellevue Hospital Medical college after the funeral at his home. Various portions of the human body have been willed to medical schools from time to time and it has not been unusual for men of science to will their brains to such institutions, but this is the first time in the remembrance of doctors in this city that a man of good position and generally normal condition of health has given his entire body for the advancement of medical knowledge.

The study of Mr. Catt's body is expected to be of usual benefit because, except for the disease from which he died, it was in all respects normal and healthy. This disposition of the body was directed by section 6 of his will which read:

"It is my wish that my body be given to a medical college in which anatomy and surgery are taught, nearest to the place of my demise, to be used in such a manner as will be most to the advancement of medical and surgical knowledge."

Mr. Catt, who was a civil engineer of national repute and a member of various societies, discussing the matter with his wife and frequently expressing his regret that medical colleges seldom had an opportunity to dissect the body of a healthy, intelligent man, he gained her consent to bequeath his body to science.

Mr. Catt was born in Davenport, Iowa, in 1860. He was graduated in civil engineering from the Iowa state college in 1882. In 1892 he organized and became president of the New York Dredging company, which engaged in various harbor improvements for the United States government for private parties along the Atlantic and Gulf of Mexico coast, including a seven-mile ship canal at Sabine Pass. He organized later the Atlantic Gulf association, an organization of engineers and contractors of which he was president. The company has a \$3,000,000 contract for harbor work in the Philippine Islands and \$2,000,000 worth of coast work.

Mr. Catt was married to Mrs. Carrie Lane Chapman of Seattle in 1890. They have no children.

FIRST COOL WEATHER.

Dropping of Temperature Will Thin Out the Mosquitoes.

New Orleans, Oct. 11.—With a fall of fifteen degrees, bringing the temperature down to 61 degrees, New Orleans had her first taste of cool weather during this fall. Tuesday night very much colder weather was experienced in other portions of the state, while advice to the weather bureau brought reports of frost as far down as Fort Smith, Ark. The effect of the fall in the temperature will, of course, be to still further thin out the mosquitoes and tend to increase improvement in the fever situation, while helping along the campaign that is now being made for removal of quarantine restrictions. In this city Wednesday weather was bright and clear, and the bracing air had a most admirable effect on the spirits of the people.

Donaldsonville formally announced that she would throw her doors open to the world on the 14th inst. and it is expected her example will be rapidly followed, although the appearance of two cases at New Iberia, the first, has interfered somewhat with the plan for opening up the Southern Pacific line as far as Crowley. New Iberia had a rigid quarantine and the appearance of cases there caused considerable surprise and much excitement in town. Except for New Iberia infection of fever conditions in the state continue to grow better. The country of which Kenner is the center is being steadily cleared as the result of the establishment of a fever hospital there.

Only six points in Louisiana reported new cases for Tuesday, and outside of New Orleans there was not a single death.

Bunkie announces that she is clear of mosquitoes, there is no fever there and she will raise her quarantine this week. Baton Rouge and Alexandria have about overcome their sickness and will resume communication with New Orleans Monday.

Eight new cases and two deaths up to noon Wednesday.

SON LOVES MOTHER.

Willing to Stay in Detention Camp That He Might See Her.

Shreveport, Oct. 11.—Former City Attorney E. H. Randolph is rounding up an extended European trip with a six-day stay at the Shreveport detention camp. Shortly after his arrival from abroad he was summoned from New York by the dangerous illness of his mother just below Colfax and just outside the quarantine district. Mr. Randolph reached his mother's bedside by chartering a special train, with the alternative of having to remain the required six days in detention before being allowed to re-enter Shreveport.

The appearance of cooler weather bids fare to cause a relaxation of local quarantine restrictions shortly.

Heavy Frost.

Ardmore, Oct. 11.—The thermometer registered 40 Saturday night. There was a heavy frost on bottom lands and also on much of the uplands. Cotton suffered. The frost extended throughout Indian Territory.

Until Dec. 19.

Buda Pest, Oct. 11.—Parliament has been prorogued until Dec. 19.

Two Steamboats Running.

Ardmore, Oct. 11.—Two steamboats, one of seventy-five tons capacity, the other of forty tons, are now plying regularly between Sawyer, I. T., and the mouth of the Kimichi river, on Red river. The boats handle large quantities of hardwood for use in the handle factories located at Sawyer.

Situation More Serious.

Moscow, Oct. 11.—The situation Tuesday was rendered more serious by the extension of the strike to a number of large furniture factories whose workmen were called out by bands of strikers going from factory to factory and forcing a suspension of work.

Is Increasing.

Monterey, Mex., Oct. 11.—Strike of firemen on Mexican railroad is increasing. For four days traffic from one end of the Monterey division to strike has been at a standstill and the strike is without doubt the most complete ever attempted in this country.

Had No Opposition.

Chattanooga, Tenn., Oct. 11.—Hon. William L. Frieron, Democrat, was elected mayor by unanimous vote, there being no Republican in the field. His term of office begins on Jan. 1. Out of eighteen members of the new board of councilmen sixteen are Democrats and two Republicans.

Due to Ill Health.

Houston, Oct. 11.—The suicide of F. B. Gray, cashier of the Commercial National bank, was due to ill health. He had stomach trouble for a long time.

No Directors Chosen.

Toledo, O., Oct. 11.—No directors for the Wabash railroad were elected Tuesday night.

Weak Hearts

Are due to indigestion. Ninety-nine of every one hundred people who have heart trouble can remember when it was simple indigestion. It is a scientific fact that all cases of heart disease, not organic, are not only traceable to, but are the direct result of indigestion. All food taken into the stomach which fails of perfect digestion ferments and swells the stomach, puffing it up against the heart. This interferes with the action of the heart, and in the course of time that delicate but vital organ becomes diseased.

Mr. D. Kauble, of Nevada, O., says: I had stomach trouble and was in a bad state as I had heart trouble with it. I took Kodol Dyspepsia Cure for about four months and it cured me.

Kodol Digests What You Eat
